#### Grape variety:

Aligoté

#### Soil:

clay-limestone hillside

#### Exposure:

northeast

#### Average planting date:

1965

#### Vinification & Aging

- Fermentation at low temperature in stainless steel tanks.
- This is an excellent wine with a nice tension and dynamism thanks to its old, mature vines.

#### Tasting Notes

White wine with a golden hue and light green reflections. It is fresh, direct and tonic with lively, lemony and even green apple notes, and has good persistence and tension.

It is perfect as an aperitif, but it also goes well with Burgundian dishes such as parsleyed ham or snails in the shell as well as seafood (oysters) or goat's cheese. Try it also with spring rolls.

#### Serving temperature:

10°C

#### Ageing potential:

To drink within three years
